

Amusement B2B

B2B — BY ENQUIRY

KAZENA Amusement

Systems that let players operate real Japanese arcade machines — claw machines and the like — remotely over the internet. Software and hardware delivered to operators as one package.

IN THE PHILIPPINES

This is a system sold to operators, not an app for the public: real Japanese arcade machines — claw machines and the like — played live over the internet. Software and hardware arrive as one package, and we deliver, install and support it here. It is amusement only; there is no gambling function of any kind.

WHAT IT DOES

- ✓ Real machines controlled live over low-latency video
- ✓ Built for Japanese arcade machines such as claw machines
- ✓ One-stop software and hardware delivery
- ✓ Amusement only — strictly no gambling

COMPANY
